

## ENGINEERS' CLUB OF MEMPHIS

Sponsored by The  
TENNESSEE VALLEY AUTHORITY

July 8, 2024 "Blurb"

Kevin Wright, PE, this month's program director, earned his Master of Science in Engineering Management from Christian Brothers University in 2022, and his Bachelor of Science in Engineering in 2008, also from Christian Brothers University.

July 8 Program: Andrew Assadollahi, PhD, PE, the Interim Dean of the Gadomski School of Engineering at Christian Brothers University, will discuss recent changes to the NCEES PE Exam. Please encourage all your prospective Professional Engineers to attend. **PDH**

**This Week's Appreciated Sponsor:**

**History Moment:** On July 7, 1930, site preparation began for the construction of what would become, at the time, the world's tallest dam, Hoover Dam. Approved in 1928, work began in 1930 on the roads and railroad necessary to bring materials, equipment, and supplies to the site as well as work to construct Boulder City, Nevada, the town necessary to house the over 21,000 workers that ultimately built the dam. Construction on the dam itself began the following spring. It was completed in 1935, two years ahead of schedule and several million dollars under budget.
